Instructor Support Observation Card

This observation tool is designed to help Senior Instructors and Centre Principals support the ongoing development of instructors within their own centre. Its aim is to promote consistent delivery standards, identify strengths, and agree practical actions that improve skill, safety, and learner experience. Feedback should be constructive, collaborative, and focused on growth.

Internal Notes

Guidance Notes

- Keep afloat observation to 10–15 minutes
- Prioritise safety positioning and interaction quality
- Focus feedback on behaviours, not personality
- Every observation must produce 1–3 actionable next steps

Look For

- √ Safe positioning can the instructor rescue now?
- √ Group spacing collision risks managed?
- ✓ Relevant task activity linked to session aim?
- ✓ Progression challenge/growth between tasks?
- ✓ Positive correction short, timely, specific?
- ✓ Emotional temperature is the session fun and safe?

Watch For

- ⚠ Instructor always chasing the fleet
- ∆ Long, static briefings
- ⚠ Feedback that is vague ("Just try again...")
- ⚠ Repetition with no progression
- ♠ One or two students dominating attention

Ask Yourself

- Would I allow my child to be in this session?
- Is the group learning something specific?

Debrief Prompts

- "What was the aim of the session?"
- "How did you know learning was happening?"
- "What would you change next time?"
- "Which sailor did you stretch the most today?"
